

Design: freistil Design-Team

## PROFILE

### TECHNICAL DESIGN – CLASSIC

- Wooden inner frame
- Seat in polyurethane foam, “density” 37 kg/m<sup>3</sup>
- Soft foam overlay
- Back in polyether foam, “density” 30 kg/m<sup>3</sup>
- Standard foot: plastic tubular surface with matt chrome optics

The data of “density” can vary in a range of +/- 10%.

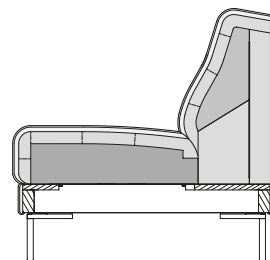

Classic sitting comfort

**Classic sitting comfort** is designed for those who like sitting on firm upholstery. The upholstery is relatively firm and therefore provides good support to the body in its sitting position. All in all, the Classic sitting comfort sofa has rather a straight look.

### TECHNICAL DESIGN – Lounge

- Wooden inner frame
- Belt spring system
- Seat in polyurethane foam, “density” 37 kg/m<sup>3</sup>, covered with a pad worked into ticking chambers with a foam fibre filling
- Back in polyether foam, “density” 30 kg/m<sup>3</sup> covered with a pad worked into ticking chambers with a foam fibre filling
- Standard foot: plastic tubular surface with matt chrome optics

The data of “density” can vary in a range of +/- 10%.

Lounge sitting comfort

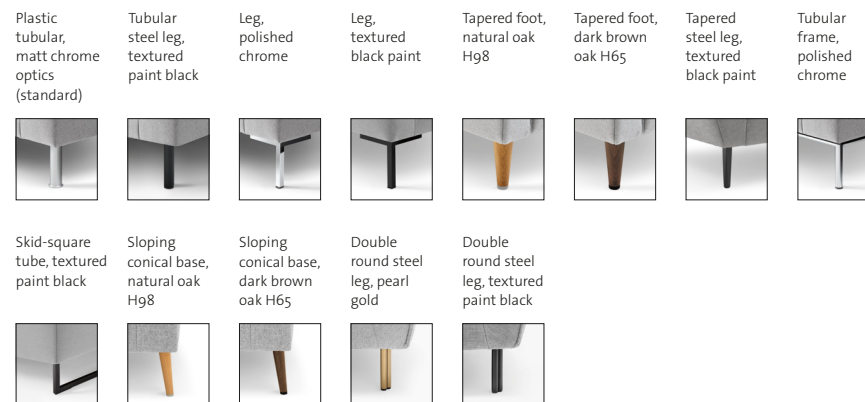

**Lounge sitting comfort** gives you a soft sitting experience, thanks to its additional padding. This is the best choice for people who prefer to snuggle down into their sofa. The Lounge sitting comfort sofa has a rather soft, “cushiony”, rippling look (wave formation).

## INFORMATION

- Choice of seat height 43, 46 or 49 cm. However seat height 49 cm is only possible with the tubular steel leg, tapered steel leg and tapered foot oak (even sloping conical bases). Please specify on ordering.
- Seat depths optionally 55 cm or 59 cm. Please specify on ordering.
- Narrow armrest ca. 12 cm wide. Wide armrest ca. 22 cm wide.
- Different seat depths can be coupled across corners. For this, use EPT or E-ASO models with different seat depths. Please do not couple different seat depths within a row, as this will result in the backrest upholstery being out of alignment.
- Model PSZ can be linked to all other models.
- Repeat and patterned fabrics cannot be processed with this range.
- Ticking chamber webs in the pads can show through to the cover (= characteristic feature of high-grade upholstery pad workmanship).
- With modular systems, velour covers can lead to different pile alignments and therefore to different shine properties.
- There are more dividing seams in leather covers than in fabric covers. Detailed information about this can be found in the info section.

**freistil 141** offers a variety of different planning possibilities. In 7 steps you can easily plan your individual bench.

## LEG VERSIONS

freistil 141 – Your alternatives:

- 1  3 armrest versions
- 2  13 leg versions
- 3  3 seat heights: 43 and 46 cm or 49 cm \*
- 4  2 seat depths (55 and 59 cm)
- 5  2 seat comfort versions (Lounge and Classic)
- 6  4 single sofa benches
- 7  8 sectional sofa-elements

\* However seat height 49 cm is only possible with the tubular steel leg, tapered steel leg or tapered foot oak (sloping conical base too).
